## Education

**Comsats University Islamabad Wah Campus**

*Bachelor in Computer Science*

## Skills

Java | C++ | Typescript | Wordpress | Python | Socket Programming | Next.js | Oracle |  
MySQL | Cisco Packet Tracer | Technical Documentation | Technical Presentation |  
Version Control | Git | html5 | Tailwind CSS | Problem Solving | Jira

## Professional Experience

**N&A Jurists, Contracted Developer**

06/2025 – present

*Full-Stack Developer (Admin Portal)*

Built a robust admin portal for N&A Jurists using Next.js and TypeScript, managing both front-end design (responsive UI via Tailwind CSS) and back-end operations.

**N&A Jurists, Contracted Developer**

03/2025 – 04/2025

*Web Developer*

Developed a secure authentication website for N&A Jurists using Next.js and TypeScript, delivered with responsive UI via Tailwind CSS.

**Khubaib Foundation, Internship**

07/2024 – 08/2024

*Full-Stack Developer (Database & Admin Portal)*

Designed and implemented a professional database and admin portal for Khubaib Foundation using Java, managing front-end interfaces and back-end logic to add, remove, and edit donor and student records.

## Projects

**College Management System**

11/2024 – 12/2024

*MySql, Oracle, Relational Algebra*

Developed a management system using OracleApex enabling efficient student, faculty and course management.

**Client Server Application**

06/2024 – 07/2024

*Socket programming, Cisco packet tracer*

Developed a Client-Server application using Socket Programming, where the client sends messages and the server receives and displays them.

**Inventory Management System**

01/2025 – 03/2025

*Nextjs, Typescript*

Developed a web app using TypeScript, implementing efficient stock tracking, categorization, and reporting features.
